Project Type: Commercial Use Installation Site: Zimbabwe Installation Date: June, 2024 System components: 28pcs of 550W mono solar panel, 1pc of 60KW off-grid inverter, 1pc of 384v 60a charge controller and 32 pieces of 12V 200Ah solar gel batteries Details: In Zimbabwe, a remote factory was.

Junchipower owns its own factory and has extensive experience and R&D capabilities in custom power inverters. We offer OEM or ODM services based on your requirements, with factory-direct pricing and fast delivery! Add your own brand identity to every inverter. Included for all orders — instantly.

A solar inverter is a device that converts the direct current (DC) generated by solar panels into alternating current (AC), making the electricity suitable for use. Inverters are considered the brain of solar energy systems, making the electrical energy usable and enabling energy savings in homes.

At Genetry Solar, we provide our own product that we designed. not a white-label or rebrand of an existing product. This means that we are able to customize our inverters to specification if desired (unlike suppliers who sell rebranded products that they did not design). The easiest customization.
