Vega Solar and Indian company Sainik Industries – Getsun Power agreed to build the first lithium ion battery factory in Albania. It would have 100 MW in annual capacity. The energy transition implies vast solar and wind power capacity, but with energy storage systems that can keep unstable.

Enter the Tirana Times Energy Storage Battery Project – Albania's answer to renewable energy reliability. This \$120 million initiative isn't just about storing electrons; it's about securing energy independence for a nation aiming to get 40% of its power from renewables by 2030 [2]. What's Cooking.

In a strategic move set to catalyse Albania's journey towards energy independence, Vega Solar has partnered with Sainik Industries – Getsun Power, heralding the construction of the nation's inaugural lithium ion battery factory. This pioneering project, announced amid the backdrop of an.

Albania is in the process of building its first lithium-ion battery factory, BalkanEngineer.com has learned from Bnnbreaking.com. Vega Solar, Albania's leading renewable energy company, in partnership with an Indian investor, is spearheading the initiative that will mark a significant leap forward.

Well, Tirana's new 84MW/168MWh battery storage system – the largest in Southeast Europe – is flipping that script. Operational since February 2025, this \$73 million project stabilizes a grid where renewable energy penetration jumped from 12% to 34% in just three years [4]. Albania's hydro-dependent.

Vega Solar, a pioneering Albanian energy firm, has recently unveiled plans for a groundbreaking collaboration with an undisclosed Indian investor, aimed at

establishing the nation's inaugural lithium-ion battery manufacturing facility.
Will Albania build its first lithium ion battery plant?
