Austria Township solar Energy Storage Station

Overview

Does Austria offer a 'made in Europe' bonus for solar PV?

Previously, the Austrian Climate Protection Ministry had announced the 'Made in Europe' bonus scheme for only solar systems (see Austria Announces Made In Europe Bonus For Solar PV). For this year, the ministry is offering a total of €70 million in funding — at 'legally required minimum level' — for solar PV, hydropower, wind and biomass projects.

Are there any solar storage subsidy programs?

Last year, there were two major solar storage subsidy programs: KLIEN and ÖMAG. ÖMAG subsidized 31,000 energy storage systems at a rate of 200 EUR/kWh. Since ÖMAG's funding was expected to run out in 2023, KLIEN was introduced as a supplement to ÖMAG.

How does EAG affect the PV sector?

Available under the country's Electricity Renewable Energy Expansion Act (EAG), the fund volume responds to the changing market conditions in the PV sector and to its budget situation, as Zehetner added that "At the same time, it is clear: We must use public funds more specifically and effectively.

What is the projected capacity of storage in 2025?

Looking forward to 2025, overall growth is expected to be 37%, with an installed capacity of 1.1 GWh. of this, household storage is projected to be installed at 670 MWh, a small increase, accounting for 61% of the total. Commercial and industrial storage 280 MWh, steady growth.
