NGEN commissioned Austria's largest battery energy storage system (BESS). It installed it in record time – just seven months. Located in Fürstenfeld, in the country's southeast, the facility has 24 MWh in capacity and a maximum output of 12 MW. The successful endeavor is part of the company's.

The storage facility featuring six Megapack 2XL systems from Tesla was built over a seven-month period in the vicinity of a wood gas generator and a solar farm. The project has a power output of 12 MW and storage capacity of 24 MWh. Slovenian company NGEN has switched on what it claims to be.

Developer NGEN Smart Grid Systems has completed a 10.3MW/20.6MWh standalone battery storage project in Austria, the largest in the country, it claimed. The Slovenia-headquartered firm has installed the project in Ardnoldstein, which is now grid-connected and participating in the electricity market.

In the Austrian federal state of Carinthia, the second phase of the Arnoldstein-Gailitz energy storage facility has been commissioned, making it the largest battery storage system in the country, with a capacity of 22 megawatts (MW) and 44 megawatt-hours (MWh). The company NGEN Group was entrusted.
