

ContainerPower Energy Solutions

Bahamas distributed solar panels

Overview

The Caribbean island nation of the Bahamas is turning to independent power producers (IPPs), the combination of “solar plus storage” and hybrid microgrids to extend sustainable energy access, improve energy reliability and resiliency, and reduce carbon emissions and environmental footprints on four of the archipelagic nation’s 30 inhabited islands (pop. around 400,000). Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar’s your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration,” he noted. “Nassau’s [the Bahamas’ largest city] is a pretty big grid, and it can take a fair bit of solar without storage,” Burgess continued.

Is the Bahamas a difficult place to generate electricity?

BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.
