# Bahamas solar panels are on top

**18650** 3.7V  
Li-ion  
RECHARGEABLE BATTERY

**2000mAh**

## Overview

---

The Bahamas Utilities Regulation and Competition Authority (URCA) has approved a landmark power purchase agreement (PPA) between Shell North America and Bahamas Power and Light (BPL) for a 132-MW solar plant and a 25-MW battery system on New Providence Island. Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

Who supports solar power in the Bahamas?

This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas Development Bank (BDB). Currently, solar power makes up less than 1% of all energy generated in The Bahamas. Oil is responsible for nearly all power generation with a 99% share of electricity production.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to

see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.
