

## ContainerPower Energy Solutions

# Bahrain solar power generation household joint venture

## Overview

---

Is Bahrain transitioning to solar energy projects?

After the establishment of the Sustainable Energy Unit (SEU) in Bahrain in 2014, a radical transition toward launching solar energy projects can clearly be observed. The SEU was established in collaboration between the national government and the United Nations Development Program (UNDP).

Where is a solar power plant located in Bahrain?

The solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1.2 square km. The project will utilise the latest advancements in solar energy technologies to optimise output and efficiency.

Is solar PV a social issue in Bahrain?

Although there are fewer peer-reviewed studies on the social aspects of solar PV compared to technical studies, the present research sheds light on public perspectives on this topic in Bahrain. In fact, it used a cross-sectional design for this purpose.

What is Bahrain's net-metering system?

A significant step forward is the establishment of the net-metering system which is a part of the National Renewable Energy Action Plan. This action plan embraces renewable energy as a viable and essential component for generating energy in Bahrain to ensure a sustainable future in energy production.
