Burkina Faso high-efficiency solar curtain wall system

Overview

What is solar photovoltaic curtain wall?

Solar photovoltaic curtain wall integrates photovoltaic power generation technology and curtain wall technology. It is a high-tech product. It is a new type of building material that integrates power generation, sound insulation, heat insulation, safety and decoration functions.

What is a photovoltaic curtain wall (roof) system?

The photovoltaic curtain wall (roof) system, as the outer protective structure of the building, must first have various functions such as weatherproof, heat preservation, heat insulation, sound insulation, lightning protection, fire prevention, lighting, ventilation, etc., in order to provide people with a safe and comfortable indoor environment.

Which solar cells are used in photovoltaic curtain wall?

At present, crystalline silicon solar cells and amorphous silicon solar cells are mainly used in photovoltaic curtain wall (roofing) systems. Photovoltaic glass modules have different color effects depending on the type of product used.

Are photovoltaic curtain walls a good choice?

Gas with harmful effect and no noise is a kind of net energy and has good compatibility with the environment. However, due to the high price, photovoltaic curtain walls are now mostly used for the roofs and exterior walls of landmark buildings, which fully reflects the architectural features.

What are the physical properties of photovoltaic curtain wall (roof) system?

The physical properties of the photovoltaic curtain wall (roof) system mainly include wind pressure resistance, water tightness, air tightness, thermal performance, air sound insulation performance, in-plane deformation performance, seismic requirements, impact resistance performance, lighting performance, etc.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.
