Chad sells energy storage batteries

Overview

Will BYD batteries be used in Tesla Shanghai megafactory?

BYD battery unit FinDreams will reportedly be supplying over 20% of the batteries that will be used in the Tesla Shanghai Megafactory.

Who makes a battery – CATL or BYD?

CATL supplies various companies, while BYD produces batteries mostly for its own needs but also for clients through its FinDreams business unit. Tesla started construction of its BESS factory (also known as the Megafactory) in the Lingang area of Pudong, Shanghai, in May, with a plan to start production in Q1 2025.

Will BYD supply lithium-ion cells for Tesla's made-in-China energy storage systems?

BYD's FinDreams battery unit will supply lithium-ion cells for Tesla's made-in-China energy storage systems. Tesla's battery energy storage systems (BESS) in China are expected to consist of LFP lithium-ion battery cells from both CATL and BYD.

When will BYD batteries start supplying batteries to Shanghai megafactory?

The BYD battery unit will reportedly start supplying batteries to the Shanghai Megafactory from the first quarter of 2025. Citing individuals reportedly familiar with the matter, Chinese publication Late Post noted that FinDreams would be supplying over 20% of the batteries that will be used in the Shanghai Megafactory's Megapack production.

Will BYD's findreams battery supply Tesla's Bess megafactory in China?

According to reports from China, BYD's FinDreams battery unit has secured a contract to supply up to 20% of the cells for Tesla's BESS Megafactory in China.

Does Tesla China have a battery supplier for Shanghai megafactory?

It appears that Tesla China has secured another battery supplier for its upcoming Shanghai Megafactory. As per recent reports, Tesla China has reportedly struck a deal with BYD's battery unit FinDreams. The BYD battery unit will reportedly start supplying batteries to the Shanghai Megafactory from the first quarter of 2025.
