# Communication Outdoor Base Station Specifications

## Overview

---

Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission. Pharos Base Stations also feature a built-in mount, meaning that no tools are required for installation.

Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission. Pharos Base Stations also feature a built-in mount, meaning that no tools are required for installation.

TP-LINK's 5GHz 300Mbps \* Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point.

$\alpha$  Base Station by SENSORO, featuring excellent outdoor signal coverage and strong hardware protection, is designed and built for outdoor IoT application scenarios that require low powerconsumption, long range and low throughput, hence capable of handling the data communication of a large-scale.

Dahua's DH-PFWB5-90n is 5 GHz base station that delivers high-performance and stable operation. This product combines an advanced radio core containing MIMO 2 x 2 technology with an integrated, high-gain, dual polarization directional antenna. The feature-rich operating system is optimized for.

The zero-failure DAMM MultiTech BS422 base station combines all the power and functionality you would expect from a state-of-the-art base station, in a small, compact box that is quick and easy to deploy and maintain - even in the harshest of environments! Whether migrating from analogue to.

The Dahua DH-PFWB5-90N is an outdoor wireless base station designed for reliable 5 GHz connectivity. Featuring an integrated 2x2 MIMO radio, it operates within the 5.150 to 5.850 GHz frequency range, delivering high performance and enhanced stability. Its robust IP-66 rated enclosure guarantees.

The Cubic Cellular Base Station is a rugged, externally rated 4G LTE Base Station with optional integrated Core Network that provides cellular connectivity to hard to reach places. Suitable for use in a wide range of industries including first responder, rail, utilities, manufacturing, and defense.
