

## ContainerPower Energy Solutions

# Current price of lithium energy storage power supply

## Overview

---

Battery storage prices have gone down a lot since 2010. In 2025, they are about \$200-\$400 per kWh. This is because of new lithium battery chemistries. Different places have different energy storage costs. China's average is \$101 per kWh. The US average is \$236 per kWh.
