

ContainerPower Energy Solutions

Djibouti large energy storage unit

18650 3.7V
Li-ion
RECHARGEABLE BATTERY

2000mAh

Overview

What is Djibouti's new solar project?

The project will be the first solar Independent Power Project (IPP) in Djibouti and will be located in Grand Bara, south of Djibouti City. The solar project is being fully developed by AMEA Power under a Build-Own-Operate and Transfer (BOOT) model and will generate 55 GWh of clean energy per year, enough to reach more than 66,500 people.

Where does Djibouti's energy come from?

Most of Djibouti's energy supply, around 80%, is sourced from neighboring Ethiopia. At the end of 2023, Djibouti was among the select few countries throughout the world that had yet to install any PV capacity, according to the International Renewable Energy Agency (IRENA).

How can Djibouti improve electricity cost and access?

To reduce electricity costs and expand access in Djibouti, important measures include regulatory reform; increasing generation capacity, especially considering renewables; regional integration of the Djiboutian transmission grid; and expansion of transmission and distribution of electricity.

What is a power purchase agreement (PPA) in Djibouti?

Amea Power has secured a power purchase agreement (PPA) for a 25 MW solar-plus-storage project in Djibouti. It will be the country's first independent power producer (IPP) project and is now in development under a build-own-operate and transfer (BOOT) framework.

Who will take over the Djibouti electricity project?

The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder. The offtaker for the project will be Electricité de Djibouti. As part of its strategic plan, the Government of Djibouti aims to reduce CO2 emissions by around 40% by 2030.

Will AMEA Power Invest in Djibouti's first IPP project?

The solar plant is the country's first IPP project and will be developed under a BOOT model. "The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder," AMEA Power said, without providing additional details.
