For Wholesale, please contact sales@solarmastertechnology.com or whatsapp +86-15251587080 for more discount.

With a 25-year materials warranty and a 30-year power warranty, the SP535M-66H solar modules deliver reliable performance for decades, reducing replacement risks and maximizing investment value. The SP535M-66H solar module harnesses power from both sides, offering a rear-side power gain of 5%-25%.

This grants SIL-530-XM lower resistive losses and better shade tolerance. The efficiency of this model reaches 22.3% — well above the market's average. And while conventional panels use only one side to absorb photons, bifacial modules employ both sides at the same time. Thanks to the technology.

JA D30 Series bifacial modules are assembled with 11BB PERCIUM cells in half cut configuration with glass on front and back. D30 series modules have a slightly larger footprint than D10 series. Module cables are also 1300mm (slightly longer than previous series). Key Features - Assembled with.

Built with 2.0mm double glass and an IP68-rated junction box, the panel withstands extreme weather conditions, making it ideal for residential, commercial, and utility-scale projects. With a 12-year product warranty and 30-year linear performance warranty, the JA Solar Bifacial Panel is a reliable.

Durable 530W Monocrystalline Bifacial Double Glass Module Solar Energy Solar Panels Key Features 1. High Efficiency Higher module conversion efficiency (up to 21.22%) benefit from Passivated Emmitter Rear Contact (PERC) technology. 2. PID Resistance Excellent Anti-PID performance guarantee limited.
