Double glass solar curtain wall customization

Overview

Are solar innovations ® curtain wall frames custom built?

All Solar Innovations ® curtain wall frames are custom built to meet the exact dimensions of your opening. Solar Innovations ® offers eight standard frame finish colors and unfinished aluminum; custom finish options are available at an additional cost.

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is a solar curtain wall?

Commercial applications are most often designed, engineered, and installed by Solar as storefronts. The curtain wall can be utilized on virtually any type of business. A system can be added to the exterior of your building or utilized for interior divisions between departments or as office walls.

What types of glazing can be added to curtain walls?

Acid etch glazing and sandblast finishes are decorative glazing solutions that can be added to curtain walls to meet specific design requirements. Another option is spandrel glass, which is painted to block all visibility.

What are decorative glazing options?

Decorative glazing options are available for unique situations such as an interior dividing wall when the end user needs to create privacy from an adjoining room. Acid etch glazing and sandblast finishes are decorative glazing solutions that can be added to curtain walls to meet specific design requirements.

What are solar curtain walls made out of?

All curtain walls manufactured by Solar are constructed out of durable aluminum. The benefit of an aluminum curtain wall is the reduction in required maintenance. Aluminum curtain walls will not rot, rust, warp, expand with heat, or require constant finishing.
