Gambia first in solar inverter

Overview

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur.

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur.

A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar photovoltaic plant in Jambur is poised to supply electricity to approximately 18,500 households. This power plant supported by The Government of The Gambia and its development.

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur. Built by Chinese manufacturer Tebian Electric Apparatus, the 23 MW solar plant - equipped with an 8 MW electricity storage system - serves to reduce the.

Wagner Solar Gambia is a beacon of sustainability in the region, distinguishing itself as one of only three enterprises capable of harnessing solar power to bring clean energy solutions to The Gambia. We are committed to renewable energy, and proudly power 90% of our operations through solar.

6Wresearch actively monitors the Gambia Solar Electric System Inverter Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market.

ENF Solar is a definitive directory of solar companies and products. Information is checked, categorised and connected. Company profile for installer Global Energy Gambia - showing the company's contact details and types of installation undertaken.

In The Gambia the sun shines most days of the year, so why waste its energy?

Solar electricity (Photovoltaic's) and solar water heating are two of the ways

of harnessing that energy - and saving money in the long term. Whatever your requirements Global Energy has an answer and will guide you. Why is a solar power plant important in the Gambia?

H.E. Corrado Pampaloni, Ambassador of the European Union to The Gambia, stated that this solar power plant is particularly important for the Gambia as it is part of the 'Gambia Electricity Restoration and Modernization Project' and contributes to a swift transition towards solar power and clean energy supply across the country.

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years. The new 23 MWp solar plant will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment.

What is the current energy generation capacity of the Gambia?

The Gambia's current generation capacity is 98 MW. Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase this capacity.

Does the European Investment Bank support a new solar plan in Gambia?

Mr. Ambroise Fayolle, Vice-President at the European Investment Bank (EIB), stated that he is delighted that the European Investment Bank is supporting this new solar plan with such economic and social impact for populations in Gambia, particularly in rural areas.

Will the Gambia achieve universal access to electricity by 2025?

The Gambia aims to achieve Universal Access to electricity by 2025, as stipulated by H.E President Adama Barrow. NAWEC will implement this goal primarily through its grid infrastructure, benefiting from the country's favourable geography.

What is an indispensable element for The Gambia's future?

Reliable access to energy is an indispensable element to realise this vision. Green energy is a key priority area under the Global Gateway. The Ambassador concluded by saying that "I would like to re-affirm here, today,

the commitment of the European Union to support The Gambia to ensure a bright and prosperous future for its people.
