Georgia Energy Storage Equipment Recommendations

Overview

Does Georgia Power have a new battery energy storage system?

Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated Resource Plan (IRP) Update.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

What do we know about Georgia Power Projects?

Georgia Power included attachments with information and data on each of the proposed projects, but since they contained “sensitive terms and conditions” and cost information, they were nearly entirely redacted from public disclosure- deemed “trade secrets.” Here’s what we do know about those projects:.

Is Georgia Power completing a Bess project?

In addition to the 500 MW BESS projects from the 2023 IRP Update, Georgia Power is nearing completion on the 65 MW Mossy Branch Battery Facility located in Talbot County, Georgia. Mossy Branch was approved in the 2019 IRP and will be Georgia Power's first BESS resource.
