

## ContainerPower Energy Solutions

# Ghana Huijue Energy Storage Battery Price

## Overview

---

Recent data shows installations grew 38% YoY in Q1 2025, with LFP (lithium iron phosphate) batteries dominating 72% of new projects. A typical 100kW/200kWh system currently ranges from \$36,000 to \$48,000. But here's the kicker - that sticker price only tells half the story.
