# Global Base Station Communication Equipment Ranking

Support photovoltaic input and AC mains input  
Suitable for home energy storage and emergency backup power supply

The image features a large, white, rectangular energy storage unit with a black control panel at the top. It is positioned in front of a modern, two-story house with a dark facade and a large gable window. The background shows a residential street with other houses and parked cars. Below the unit, there is a text box with the following text: "Support photovoltaic input and AC mains input" and "Suitable for home energy storage and emergency backup power supply". To the right of the unit, there is an inset image showing a collection of household appliances: a white range hood, a white range, a black refrigerator, a white water dispenser, and a silver laptop.

## Overview

---

Global key players of 4G & 5G Base Station include Huawei, Ericsson, Nokia, ZTE, Samsung, etc. The top five players hold a share over 96%. Asia-Pacific is the largest market, has a share about 83%, followed by Europe and North America, with share 7% and 6%, separately.
