# How much does it cost to install solar panels for solar power generation

## Overview

---

How much do solar panels cost on average?

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below).

How much do solar panels cost on average?

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below).

Solar panels generate “free” electricity, but installing a system still costs money. A typical American household needs a 10-kilowatt (kW) system to adequately power their home, which costs \$28,241 in 2025. That price effectively drops to \$19,873 after considering the full federal solar tax credit.

How much do solar panels cost on average?

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below). The total price depends.

Solar panel costs range from \$16,600 to \$20,500 for the average 6.5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems. To find the most up-to-date solar panel costs in 2025, we compared research from the U.S. Department of

ow much does installing solar panels cost has become a key question for many homeowners looking to cut monthly expenses and go green. At a glance: Solar power has been getting more affordable each year. In 2025, the costs for solar panels continue to trend downward due to technological advances.

Installing solar panels costs an average of \$27,178, with most homeowners spending between \$18,356 and \$36,405 on average. You can pay as little as \$3,500 or as high as \$55,000, depending on your project scope. You'll pay \$2.50 to \$3.50 per watt, depending on your location, system size, panel.

Solar panel installation cost averages \$27,178, with most homeowners paying between \$18,356 and \$36,405. Your price depends on system size, panel type, and labor. Solar panel installation means adding a photovoltaic (PV) energy system to your home, mounted on your roof or property. System size.
