Huawei inverter 215kw

Overview

What is a Huawei sun2000 215kti-h3 solar inverter?

The Huawei SUN2000-215KTL-H3 three-phase on-grid inverter is a high-performance solution for efficiently converting solar energy into electric power, suitable for large solar systems. Designed to meet high energy demands, this inverter supports up to 215,000 watts of power, making it suitable for large-scale industrial and commercial applications.

What is a 3 phase Huawei 215kw converter?

Converter three phase Huawei 215kW with 6 MPPT and 98,8% efficiency. Ideal for facilities network connection industrial up to 1500V nominal DC input. The Huawei line stands out for its variety of configurations, wide MPPT voltage range and its light and compact structure.

What is the warranty on the Huawei sun2000-215kti -H0 inverter?

Only trust those companies that offer a guarantee on all products, such as Wccsolar. In this case, the warranty on the Huawei SUN2000-215KTL -H0 inverter is 5 years provided that the product has been used following the recommendations, maintenance and respecting the compatibility established by the manufacturer.

How much power does a solar inverter have?

With a nominal power of 215 kW, this inverter incorporates advanced technologies to ensure efficiency and durability. Featuring three independent MPPT controllers and a European efficiency of 98.60%, this model is ideal for large industrial solar installations, ensuring efficient management even under varying lighting conditions.

Why should you choose a Huawei Solar System?

The Huawei line stands out for its variety of configurations, wide MPPT voltage range and its light and compact structure. Designed for long life with short

circuit protection, overloads and high temperatures, will provide problem-free operation of your solar installation for many years.

How much does an inverter weigh?

Compact and lightweight, with dimensions of 1,035 x 700 x 365 mm and weighing only 86 kg, this inverter facilitates quick and efficient installation. Equipped with 9 independent MPP trackers and integrated surge protection for AC and DC, it guarantees safe and durable operation.
