Hungarian energy storage vehicle price comparison

Overview

How will Hungary's subsidy scheme affect battery energy storage?

The Hungary panel discussion at the event. Image: Solar Media. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years.

Is Hungary a good market for energy storage subsidies?

Moderator Nikita Chandrashekar, director at advisory Augusta & Co, said the scheme made Hungary an attractive market: "It is probably one of the most advanced subsidies schemes to bring energy storage forward. So from a revenue perspective, perhaps, unlike some other markets, the business case in Hungary seems pretty well developed."

Why is Hungary a good place to buy a battery?

Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the presence of large car manufacturers and its extensive supplier industry.

What is the Hungarian battery value chain strategy?

Based on the situation analysis presented above, the vision of the Strategy, which takes the form of a long-term concept, is to support the establishment of a Hungarian battery value chain based on high value-added services and production in Hungary, as well as a joint value creation by international and national operators.

Why should we invest in battery production in Hungary?

The current battery production facilities in Hungary, together with the growing number of end-of-life electric vehicles, offer good opportunities to develop innovative and sustainable recycling processes of the valuable battery materials. 6. Strengthening international co-operation.

What is the capacity of a network storage facility in Hungary?

The first network storage facility in Hungary was installed by E.On in 2018 followed shortly by Alteo with 3.92 MWh and ELMŰ (Innogy) with 6 MWh (6 MW + 8 MW capacity). Currently, the total capacity of the storage units applied in the primary Hungarian regulatory market is 28 MW.
