Israel Hane Solar Cell

Overview

The Negev Desert and the surrounding area, including the , are the sunniest parts of Israel, and little of this land is , which is why it has become the center of the Israeli solar industry. David Faiman thinks the energy needs of Israel's future could be met by building solar energy plants in the Negev. As director of Ben-Gurion National Solar Energy Center, he operates.

This innovative solar cell is designed to fully cover agricultural areas (including greenhouses, orchards, and fields) and water bodies while simultaneously generating green electricity and agricultural production, without interruption of natural habitats under the PV panels, without using up natural resources, and without harming the environment.
