

ContainerPower Energy Solutions

Italian modern solar curtain wall system

Overview

Are solar innovations ® curtain wall frames custom built?

All Solar Innovations ® curtain wall frames are custom built to meet the exact dimensions of your opening. Solar Innovations ® offers eight standard frame finish colors and unfinished aluminum; custom finish options are available at an additional cost.

What is a solar curtain wall?

Commercial applications are most often designed, engineered, and installed by Solar as storefronts. The curtain wall can be utilized on virtually any type of business. A system can be added to the exterior of your building or utilized for interior divisions between departments or as office walls.

What is photovoltaic curtain wall?

Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior.

What is an all-in-one curtain wall system?

The all-in-one curtain wall system is an extra outer shell that not only improves the building's energy balance, but offers the fabric lasting protection from weathering. The SL Modular offers a wide range of options for custom balustrade design.

What is a curtain wall system?

The Curtain Wall System is a thermally enhanced aluminum tubular glazing system for commercial and residential applications. Curtain walls are an excellent way to bring natural light into a room while remaining protected from the elements.

What are solar curtain walls made out of?

All curtain walls manufactured by Solar are constructed out of durable aluminum. The benefit of an aluminum curtain wall is the reduction in required maintenance. Aluminum curtain walls will not rot, rust, warp, expand with heat, or require constant finishing.
