

ContainerPower Energy Solutions

Japanese Industrial Container Wholesale

Overview

Who is container sales Japan?

We design and manufacture durable ISO containers and related logistics equipment for a broad range of commercial and military uses and applications. Container Sales Japan has produced tens of thousands of containers that have been transported all over the world and used on every continent.

What are the different types of container sales Japan containers?

Container Sales Japan containers are available in standard 20' or 40' lengths as well as Bicons, Tricons, and Quadcons. Each type of container has several types of cargo and/or roll door configurations available so your cargo will be secure during transport and easily accessible when it arrives at its destination.

Can you deliver a container in Japan?

We can also offer container processing on your request. We can deliver containers at Japan main port (Tokyo, Yokohama, Nagoya, Osaka, Kobe, Moji, Hakata), and arrange nationwide delivery on your request. The container inventory and prices fluctuate daily, so please contact us for the details.

Why should you choose container sales Japan?

Each type of container has several types of cargo and/or roll door configurations available so your cargo will be secure during transport and easily accessible when it arrives at its destination. If your storage or transportation needs are more unique, Container Sales Japan can create custom sized containers to accommodate any needs.

What is a refrigerated container?

A refrigerated container ("reefer"), is a well insulated ISO shipping container which consists of air cooling compressor with the function to set fixed

temperatures between -25 to +25 degree Celsius. They are used for shipping or storing temperature sensitive cargoes such as fruits & seafood.

What is an open top container?

Open Top containers allow for opening on the top of the container to enable the storage of bulky cargoes too large to fit the height of standard containers. "Soft" Open Top containers come with a detachable tarpaulin that can be lashed in place with cords through its eyelets.
