

## ContainerPower Energy Solutions

# New Zealand lithium battery energy storage system

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey and white energy storage system unit. The front door is white and has a small digital display and control panel. The side panel is grey with a perforated mesh. The unit is labeled 'Energy Storage System' and 'DW-ESS-100P-200' at the bottom.

-  **BATTERY CAPACITY**  
50kWh~500kWh
-  **DC VOLTAGE RANGE**  
400V~1000V
-  **DEGREE OF PROTECTION**  
IP54
-  **OPERATING TEMPERATURE RANGE**  
-10-50°C

## Overview

---

Meridian Energy has officially opened New Zealand's first large-scale grid battery storage system at Ruakākā, the first of its kind, and a milestone in the country's renewable energy infrastructure development.

Meridian Energy has officially opened New Zealand's first large-scale grid battery storage system at Ruakākā, the first of its kind, and a milestone in the country's renewable energy infrastructure development.

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. On January 10, 2023, Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale.

New Zealand is transitioning most of its remaining fossil-fuelled generation to renewables-based intermittent and variable generation. Having a greater proportion of intermittent and variable generation creates challenges for how the power system operates, including the reliability and security of.

Genesis Energy, a listed New Zealand generation, wholesale, and retail energy company, has started constructing a 100MW/200MWh battery energy storage system (BESS) on the country's North Island. The company confirmed it had kicked off construction of the BESS on 5 June. It will be located at Huntly.

In a major step forward for New Zealand's renewable energy future, Genesis Energy has commenced construction on a 100 MW / 200 MWh Battery Energy Storage System (BESS) adjacent to the iconic Huntly Power Station. As lead designer, our strong technical expertise and agile problem-solving to design.

Meridian Energy has officially opened New Zealand's first large-scale grid battery storage system at Ruakākā, the first of its kind, and a milestone in the country's renewable energy infrastructure development. The Ruakākā Battery Energy Storage System (BESS) delivers 100 megawatts (MW) of maximum.
