Overview

Who makes high performance aluminium curtainwall unitised systems?

High performance aluminium curtainwall unitised systems, engineered, manufactured and installed by Thermosash.

Who is JY curtain wall NZ?

Premium Curtain Wall Solutions from Design to Precision Manufacturing and Flawless Installation. JY Curtain Wall NZ Ltd is a subsidiary of Guangdong Rising Holdings Group Co., Ltd., and a large-scale, specialized curtain wall company.

What is a curtainwall?

Since 1985 Thermosash Commercial Limited has developed a totally integrated highrise, performance, unitised panelwall (curtainwall) suite to enable all the product aesthetic features to be used on one project. These products can also be used on lowrise applications where large spans or large panes of glass require a higher strength system.

What is a highrise unitised curtainwall system?

Highrise Unitised Curtainwall or Panelwall systems offer a total cladding package, which are flexible and versatile. The design options for architects from the combinations of materials and colours available today are almost limitless.

What are the advantages and features of unitised curtain walling?

The advantages/features of unitised curtain walling are: Manages differential rates of thermal expansion and contraction. Connection details to accommodate construction tolerances. Glass design and its integration with the glazing system to ensure glass warranties are complied with.

Who is JY curtain wall?

As one of the first companies in China to obtain top-tier qualifications in curtain wall design and construction, JY Curtain Wall has been deeply engaged in designing, manufacturing, and installing curtain walls and windows for nearly 40 years. Efficient One-Stop Solutions, Saving You Time.
