# New energy storage projects in Brazil

## Overview

---

Brazil's planned 2025 Capacity Reserve Auction (LRCAP) – intended to contract energy storage to meet electricity demand during peak hours by evening out the supply of intermittently-generated renewable energy – could fire the nation's large-scale energy storage market.

Brazil's planned 2025 Capacity Reserve Auction (LRCAP) – intended to contract energy storage to meet electricity demand during peak hours by evening out the supply of intermittently-generated renewable energy – could fire the nation's large-scale energy storage market.

The Chinese electrical equipment company estimates battery market potential of 5 GWh through 2027, worth BRL \$7.5 billion (\$1.26 billion). TBEA sales manager Daniel Lyrio tells pv magazine which variables can make projects competitive. Brazil's planned 2025 Capacity Reserve Auction (LRCAP) –

The Brazilian National Electric Energy Agency (ANEEL) is entering a new phase of dialogue on energy storage regulation. On December 10, 2024, ANEEL presented the results of the first phase of Public Consultation (CP) No. 39/2023 and announced the opening of a second phase for further contributions.

The auction aims to boost Brazil's grid reliability by integrating energy storage for wind and solar power. Credit: r.classen/Shutterstock. Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take.

But hold onto your caipirinhas —this South American giant is fast becoming a hotspot for new energy storage projects. With abundant sunlight, ambitious climate goals, and a hunger for grid stability, Brazil's renewable energy sector is dancing to a new rhythm. In 2025 alone, projects like the Ilha.

What are the energy storage projects in Brazil?

Energy storage projects in Brazil represent a crucial component of the country's efforts to enhance its energy infrastructure and support renewable energy sources. 1. The focus on energy storage is essential for optimizing the

integration of.

Brazil's federal government is preparing to run the country's first-ever battery storage auction later in 2025, the Ministry of Mines and Energy (MME) has confirmed. In a statement, energy minister Alexandre Silveira said the new tender would be "crucial" for reinforcing the power system. He.
