New independent energy storage project in China and Africa

Support Customized Product

Overview

On June 21, local time, during the 2025 African Energy Forum, China Nengjian signed an EPC contract with Globeleq, a British independent power producer, for the largest single battery energy storage power station in Africa, the 153MW/612 MWh battery energy storage .

On June 21, local time, during the 2025 African Energy Forum, China Nengjian signed an EPC contract with Globeleq, a British independent power producer, for the largest single battery energy storage power station in Africa, the 153MW/612 MWh battery energy storage .

China Energy Engineering Corporation has officially signed an EPC contract with Globeleq, an independent power generation company in the UK, for the 153MW/612MWh battery energy storage project in Red Sands, South Africa. This project will become the largest single battery energy storage power.

On June 21 local time, during the Africa Energy Forum 2025, CEEC signed an Engineering, Procurement, and Construction contract with British independent power producer Globeleq for the Red Sand 153MW/612MWh Battery Energy Storage Project in South Africa — the largest single-site battery energy.

Located 41km east of Kashgar, the first phase (500 MW/ 2 GWh) of a mega-battery project of 1 GW/4 GWh has been commissioned by Huadian Xinjiang Kashgar in China. Comprising of 100 lithium iron phosphate (LFP) energy storage units, the system employs an innovative split approach, with half the.

According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage activity, with 1,468 new project applications and 88 manufacturing initiatives launched. From ESS News China continued its high-growth energy storage market expansion in July.

On June 21, local time, during the 2025 African Energy Forum, China Nengjian signed an EPC contract with Globeleq, a British independent power producer, for the largest single battery energy storage power station in Africa, the 153MW/612 MWh battery energy storage project in Hongsha, South Africa.

On July 19, the 500 MW / 2 GWh independent energy storage project in Huadian Xinjiang Kashgar was officially connected to the grid. The work was carried out by the 16th Power China Hydropower Bureau, reinforcing the country's commitment to the transition to a more reliable and sustainable.
