

ContainerPower Energy Solutions

Portuguese energy storage battery company

Overview

StorSystems is driving the Portuguese energy transition by developing, building, and operating advanced battery storage systems. Battery storage allows power produced now to be stored for use later. It will be essential for a decarbonised and reliable energy network in Portugal. Who won Portugal's new battery energy storage system tender?

(EUR 1 = USD 1.048) Aquila Clean Energy EMEA, the European renewable energy arm of German investment management firm Aquila Group, announced that it was among the winners in Portugal's latest battery energy storage system (BESS) tender, securing 40 MW across two projects.

How many battery projects are being built in Portugal?

Portuguese energy giant GALP has announced construction of five battery projects, with a total capacity of 74 megawatts (MW), to store solar energy in Spain and Portugal.

What is a battery energy storage project?

The battery energy storage project utilizes Powin's Centipede Stack750 and a power conversion system from Hitachi Energy, underscoring the importance of partnership between global companies in supporting Europe's energy transition.

Is Portugal a good place to invest in solar energy?

Portugal is widely recognized as a European leader in renewable energy adoption, and projects like the Alcoutim solar park further highlight the country's commitment to sustainability and energy independence. The region benefits from abundant sunshine year-round, making it an ideal location for large-scale solar generation and now, energy storage.

How much solar power does Portugal have in 2022?

Portugal's cumulative PV capacity hit 2.59 GW at the end of 2022. It aims to

install 20.4 GW of solar by 2030. The country has set a goal of at least 80% of electricity production coming from renewable sources by 2050. In November, it enjoyed a weekend of being powered solely by renewables.
