

ContainerPower Energy Solutions

Pretoria rural container solar energy storage manufacturer

Overview

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international quality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”.

What is sustainsolar – a containerised solar power solution?

Sustainable Power Generation (Pty) Ltd recently introduced its new containerised solar power solution – SustainSolar – for the African market. The South African-based clean Developing economies face numerous challenges regarding reliable electricity supply, especially in rural areas, which require unique, inventive responses.

What are VAC solar containerised solutions?

The VAC Solar containerised solutions include the required high voltage inverters, LiFePO4 batteries and MCCs (Motor Control Centres) complete with the AC and DC switch gear and protection i.e. circuit breakers, change over switches, fuse protection and SPDs (surge protection devices).

What is a containerised PV plant?

The deployment of containerised PV plants is a fast and convenient method of deploying a new system in remote locations where brick and mortar buildings are not available. These plants can be built and commissioned off site and reduces the time from order placement to energy production significantly.
