Overview

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.

How big would a Bess project be in Romania?

The project would be many times larger than the largest BESS online in Romania today, a 6MW/24MWh system from developer and independent power producer (IPP) Monsson (Premium access article).

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

Is Romania's battery storage market ready for takeoff?

Romania's battery storage market is gaining momentum, but it's not yet ready for takeoff. A recent Aurora Energy Research report reveals strong investor interest and promising early projects, but also highlights some regulatory gaps and unclear market access.

Is Romania a Bess market?

“As other European BESS markets become increasingly saturated, Romania stands out,” said Evangelos Gazis, Aurora’s head of Southeastern Europe, adding that the investment case for storage is strengthened by wind and solar’s rapid expansion driving high volatility in wholesale and balancing markets.
