Saint Lucia Energy Storage Battery Investment Project

Overview

Construction work will include the development of 10 MW of solar power along with an energy storage system with two-hour lithium-ion batteries with a capacity of approximately 13 MW / 26 MWh, as well as connection to LUCELEC's 66 kV transmission grid.

Construction work will include the development of 10 MW of solar power along with an energy storage system with two-hour lithium-ion batteries with a capacity of approximately 13 MW / 26 MWh, as well as connection to LUCELEC's 66 kV transmission grid.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with 13 MW battery energy storage later this year. St Lucia Electricity Services (LUCELEC) plans to tender a 10 MW solar plus storage project in St Lucia. According to an announcement released by the.

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project—a 10 MW photovoltaic installation paired with a 26 MWh lithium-ion battery energy storage system (BESS). The project, set to be tendered later this.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with accompanying battery energy storage later this year. St Lucia Electricity Services (LUCELEC) is planning to tender a 10 MW solar project in Saint Lucia. According to a notice posted by the utility.

Saint Lucia is set to take a major leap in its renewable energy journey, planning to launch a tender in 2025 for a 10 MW solar project paired with a significant 13 MW of battery energy storage. This initiative is a cornerstone of the island's strategy to slash its reliance on volatile fossil fuel.

Washington, D.C., April 17, 2025 — The World Bank's Board of Executive Directors today approved the Caribbean Resilient Renewable Energy Infrastructure Investment Facility for Grenada, Saint Lucia, and Saint Vincent and the Grenadines. The new regional initiative, developed with the Eastern.

Saint Lucia Electricity Services (LUCELEC) plans to tender a 10 MW solar project with battery energy storage later this year. The project, which will be the island's second industrial-scale solar initiative, includes 10 MW of solar power and an energy storage system with 13 MW capacity using.
