Saudi Arabia energy storage power station construction costs

Overview

Equipment supply contracts are valued at about USD 179 million for Tabuk and USD 183 million for Hail, while engineering and construction costs are estimated at USD 116 million and USD 118 million, respectively.

Equipment supply contracts are valued at about USD 179 million for Tabuk and USD 183 million for Hail, while engineering and construction costs are estimated at USD 116 million and USD 118 million, respectively.

Saudi Electricity Company (SEC) has secured two massive battery energy storage systems totaling 4.9 GWh at a cost of just USD 73-75 per kilowatt-hour (kWh) installed, marking a potential turning point for energy storage economics outside China. Energy storage costs have been on the sort of slide.

Saudi Electricity Company has secured two major battery energy storage projects in northern Saudi Arabia, signaling a significant shift in global energy storage economics, according to industry sources. The combined capacity of these projects is 4.9 GWh, with installation costs ranging from USD 73.

Saudi Arabia has taken a significant step toward revolutionizing its renewable energy sector, announcing the prequalification of 33 companies for its ambitious 8GWh Battery Energy Storage System (BESS) projects. This initiative, which is a critical part of the country's broader energy.

Furthermore, it is expected that each will have a 500MW output and 2,000MWh in storage capacity. The contract, which entails 15-year terms, will be awarded on a build-own-operate (BOO) model. It also entails the aspect of bidders holding 100% equity in special purpose vehicle (SPV) companies set up.

Saudi Arabia aims to overtake China in lowering battery energy storage costs by next year, Energy Minister Abdulaziz bin Salman has said. The cost of four-hour storage capacity in the Kingdom is approximately \$409 per kilowatt, 77 percent lower than in Germany, and approaching China's \$404, Ashraq.

The latest news from Saudi energy storage projects with bids between USD

73/kWh and USD 75/kWh, have brought record low battery prices outside China in a big way. The new prices foretell a battery boom that will reshape complete markets Saudi Electricity Company (SEC) has secured two massive.
