Saudi Arabia solar panel assembly factory

Overview

Established in 2010 by the King Abdulaziz City for Science and Technology (KACST), the Solar PV Cell & Module Manufacturing Plant and PV Reliability Laboratory produces solar panels and cells. Does Saudi Arabia have a solar PV manufacturing plan?

This is the latest PV manufacturing plan in Saudi Arabia, and the Middle East, which has seen an increase of announcements this year. In July, the Saudi Arabia's Public Investment Fund (PIF) signed two solar PV manufacturing agreements that would see 30GW of domestic manufacturing capacity built in the country, from ingots to modules.

Will desert technologies build a solar cell plant in Saudi Arabia?

Solar PV infrastructure company Desert Technologies intends to build a solar cell and module assembly plant in Saudi Arabia. The plant will have an annual nameplate capacity of 5GW, of which 3GW for solar cell capacity and 2GW for PV modules. However, the company did not disclose what technology will be used for the solar cells.

Where do solar panels come from in Saudi Arabia?

Jeddah, with its strategic location near the Red Sea, serves as another pivotal supply chain center for solar panel suppliers in Saudi Arabia. This city's ports are essential for importing raw materials and exporting finished solar panels, bolstering the solar energy companies in Saudi Arabia to expand their reach beyond the domestic market.

Will JinkoSolar build a 10 GW solar cell factory in Saudi Arabia?

A JinkoSolar-led consortium has announced plans to construct a 10 GW solar cell and module factory in Saudi Arabia with PIF and Vision Industries Company. Chinese module maker JinkoSolar is leading a consortium that plans to build a 10 GW solar cell and module factory at an unspecified location in Saudi Arabia.

Is Saudi Arabia a hotspot for solar energy development?

The Kingdom of Saudi Arabia is rapidly becoming a global hotspot for solar energy development, thanks to its abundant sunshine and strategic initiatives to diversify its energy resources. Among these initiatives, the development and manufacturing of solar panels have seen significant growth.

What is solar PV cell & module manufacturing plant?

The Solar PV Cell & Module Manufacturing Plant is working to apply new solar energy technology and develop commercial-grade equipment suitable for severe heat and sandstorms.
