Paris & Mahé, August 20, 2025 – Independent renewable energy company Qair has secured a USD 5.7 million senior debt facility from the Facility for Energy Inclusion (“FEI”), managed by Cygnum Capital, to finance the development, building, operations, and maintenance of a 5.8 MWp Floating Solar plant.

French renewable energy company Qair has secured a \$5.7 million (approximately € 4.8 million) senior debt facility from the Facility for Energy Inclusion (FEI), managed by Cygnum Capital, to finance the development, construction, and operation of a 5.8 MWp floating solar plant in Providence Lagoon.

Seychelles is set to make a significant leap in renewable energy with the launch of its first floating solar farm, which will be the largest in Africa by its completion in mid-2025. Spanning 32 hectares of the lagoon at Providence, this ambitious project is a collaboration between Seychelles’.

5MW solar PV plant with battery storage. The Republic of Seychelles has inaugurated its second clean energy project, e of the national grid of the Seychelles. It is estimated that the project will save approximately 2 million liters of fuel annually and offset 6,00 tonnes of carbon dioxide. Have.

a 5MW solar PV plant with battery storage. The Republic of Seychelles has inaugurated its second clean energy project, wer plant to the main island of Mah&#233;. This system helps increase the resilie elles' Public Utilities Corporation (PUC). The PV array is specifically designed to maximise the.

ar PV plant with battery storage. The Republic of Seychelles has inaugurated its second clean energy project, a 5MW so to the main island of Mah&#233;. This system helps increase the resilience of th national grid of the Seychelles. It is estimated that the project will save approximately 2.
