Solar power prices in Guinea-Bissau

Overview

MNRE has given solar benchmark cost for the FY 2021-22 as Rs. 44,640/kWp for grid connected solar power plants of 3kWp to 10kWp, which has decreased to Rs. 43,975 for the FY 2023-24.

MNRE has given solar benchmark cost for the FY 2021-22 as Rs. 44,640/kWp for grid connected solar power plants of 3kWp to 10kWp, which has decreased to Rs. 43,975 for the FY 2023-24.

According to the World Bank, the national electricity access rate is just 35.3%, a figure that drops to a stark 9.8% in rural areas. This energy deficit forces a heavy reliance on expensive and inefficient diesel generators for homes, businesses, and critical infrastructure, creating a powerful.

WASHINGTON, JUNE 6, 2024 - The World Bank's Board of Executive Directors approved a \$35 million grant to enable solar power generation and increase access to electricity in Guinea-Bissau. The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy.

Rural Areas of Guinea Bissau are set to receive electricity through off-grid solar technologies through a project called the Regional Off-Grid Electricity Access Project (ROGEAP). ROGEAP will be implemented by the Economic Community of West African States (ECOWAS) and funded by the World Bank.

The Benchmark costs for Grid Connected Rooftop Solar Power Plants for the Year 2021-22 communicated by MNRE is as under:-Capacity Benchmark cost (Rs/Wp) Up to 1KW : 53.398: Above 1 kW and upto 2 kW : 49.093: Above 2 kW and upto 3 kW : 47.819: Above 3kW and upto 10kW : 46.648: Above 10 kW and upto.

Solar resource and PV power potential maps and GIS data can be downloaded from this section. Maps and data are available for 200+ countries and regions. Please select a region or a country in the menu below. The maps and data have been prepared by Solargis for The World Bank. They are provided.

The World Bank is supporting the development of Guinea-Bissau's first solar

power plants, aiming to decarbonise electricity production and boost electrification. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already.
