Southern Europe solar Energy Storage

Overview

How many battery energy storage systems were installed in Europe in 2024?

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking-installations, and bringing Europe's total battery fleet to 61.1 GWh. However, the annual growth rate slowed down to 15% in 2024, after three consecutive years of doubling newly added capacity.

What is the European energy storage inventory?

The Commission's European Energy Storage Inventory can help address this gap within Europe. Launched in March 2025, it is the first European-level tool of its kind, providing a real-time dashboard of energy storage levels in Europe, offering energy storage data across a full range of technologies.

What is large scale solar southern Europe Summit?

Large Scale Solar Southern Europe Summit is back this September in Greece! Southern Europe's renewable energy sector is evolving rapidly, with Greece targeting 15GW of solar by 2030 and Turkey emerging as a solar manufacturing hub. As adoption accelerates, energy storage is taking center stage.

Is energy storage a good investment in Europe?

Compared to classic renewables, energy storage has really only become an investable asset in Europe over the last few years on the back of technology advances, market price signals, and government support mechanisms.

What is Solarpower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Our mission is to ensure solar becomes Europe's leading energy source by 2030. As the member-led association for the European solar PV sector, SolarPower Europe represents over 320 organisations across the

entire solar sector.

Does Europe have a battery storage market?

Europe's annual battery storage deployments doubled in 2023, but the pace of adoption is still much slower than required, according to SolarPower Europe. The continental trade association for solar PV industries published new analysis of the sector in its report, European Market Outlook for Battery Storage 2024-2028.
