

ContainerPower Energy Solutions

Spanish Solar Energy

Overview

Spain is one of the first countries to deploy large-scale solar photovoltaics, and is the world leader in concentrated solar power (CSP) production. Spain is also one of the European countries with the most hours of sunshine. In 2022, the cumulative total solar power installed was 19.5 GW, of which 17.2 GW were solar PV installations and 2.3 GW were concentrated solar power. In the same. Installed capacity38.59 GW (2024) ()Annual generation58.6 TWh (2024)Capacity per capita816 W (2024)Share of electricity20.9% (2024)Watch full videoTimeline of developmentsThrough a ministerial ruling in March 2004, the Spanish government removed economic barriers to the connection of renewable energy technologies to the electricity grid. The Royal Decree 436/2004 equalised c.
