

ContainerPower Energy Solutions

Swedish home solar energy storage processing company

Overview

Who are the largest solar installers in Sweden?

In the following we will present three large PV-Installers in Sweden. 1. Svea Solar (Stockholm) Svea Solar was founded in 2014 and is headquartered in Stockholm. The company offers a wide range of solar solutions. While the company is established and based in Sweden, it expanded its services to Spain, Germany, Belgium, and the Netherlands.

Who is Solartech?

Solartech was founded in 202 and has since established itself as a prominent player within Sweden's flourishing solar energy sector. The company offers a comprehensive range of solar solutions, which are provided to both residential and commercial clients. Since their inception the company has installed over 1.000 solar systems throughout Sweden.

What is the solar market like in Sweden?

The market leans towards specialization, where companies such as SVEA Renewable Solar AB and Exeger Sweden AB focus on specific niches in solar technology. Despite the presence of larger conglomerates like Vattenfall AB, the market is fairly fragmented with numerous smaller companies contributing to its dynamics.

What is soltech home?

In October, Soltech Energy launched the Soltech Home concept. The concept integrates solar panels, energy storage, EV charging, support services, smart controls, and customer service. Together, a tailored package is created for households seeking to future-proof their energy use and enhance energy efficiency in their homes.

Who does Solartech work with?

Solartech works with solar panels from different manufacturers, including

Longi, Electrolux, and SoliTek. Additionally to its solar installations the company offers services for solar battery storage systems and EV Charging Stations. 3. Solarwork Sweden AB (Stockholm)

Swedish home solar energy storage processing company
