Overview

Recent data shows Thailand's lithium battery storage systems now average ฿4.2-5.8 million per MWh (\$115,000-160,000), influenced by three key factors: Why is the Thailand lithium ion battery market growing?

The Thailand Lithium Ion Battery market has experienced rapid expansion, primarily attributed to the growing demand for portable electronics, electric vehicles, and renewable energy storage solutions.

Who makes the best lithium-ion batteries in Thailand?

In the Thailand lithium-ion battery market, several leading manufacturers have gained prominence. Panasonic Corporation is a notable player, renowned for its high-quality lithium-ion batteries used in various applications, from consumer electronics to electric vehicles (EVs).

How much is the Thailand battery market worth?

According to the report published by the Next Move Consulting, the Thailand battery market business is expected to hit at \$4.01 billion (USD) by 2030. What are the leading companies in the Thailand battery market?

What are the market segmentations and scope of the study for the Thailand battery industry?

.

How did the Thai lithium battery market perform in 2021?

In 2021, the Thai lithium battery market increased by 12% to \$X, rising for the second consecutive year after two years of decline. Overall, consumption, however, faced a abrupt decrease. Over the period under review, the market attained the peak level at \$X in 2012; however, from 2013 to 2021, consumption remained at a lower figure.

What is the largest lithium-ion battery storage system in the world?

Vistra says the facility, which uses technology from LG Energy Solution, is the largest lithium-ion battery storage system in the world. Burns & McDonnell provided engineering, procurement, and construction expertise for the expansion, which was completed in less than a year.

Which countries import lithium batteries to Thailand?

In value terms, China (\$X), Indonesia (\$X) and Japan (\$X) appeared to be the largest lithium battery suppliers to Thailand, together comprising 78% of total imports. These countries were followed by Israel, the United States, the Czech Republic and France, which together accounted for a further 18%.
