

ContainerPower Energy Solutions

Tunisian lithium battery BMS company

✓ 100KWH/215KWH

✓ LIQUID/AIR COOLING

✓ IP54/IP55

✓ BATTERY 6000 CYCLES

Overview

What is a lithium-ion battery?

Lithium-ion batteries are at the heart of modern technology, used in electric vehicles, electronic devices and energy storage systems. To fully exploit their potential, while guaranteeing safety and durability, a high-performance BMS (Battery Management System) [.].

Does a lithium-ion battery management system cut it?

Lithium-ion applications come with pretty unique electrical demands. That's why a one-size-fits-all battery management system simply won't cut it. Voltaplex offers tailored BMS design services that align with your product's power requirements, space constraints, and industry-specific compliance needs.

What can a BMS supplier do for You?

Customization for Specific Applications: An experienced BMS supplier can provide tailored solutions to meet the unique needs of different industries, whether it's electric vehicles, renewable energy systems, aerospace, or telecommunications.
