September 15, 2025: Ukrainian private energy sector investor DTEK and Fluence have energized a 200 MW BESS in Ukraine. DTEK said on September 11 the €125 million (\$147million) investment showed capital can still flow into Ukraine's energy sector when there is a clear need, with the right.

DTEK's Fluence Gridstack battery units at one of six energy storage sites across Ukraine, part of the country's largest battery energy storage project announced on July 10, 2025. (DTEK press service) DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's.

Ukraine's 200 MW/400 MWh battery project dwarfs most Eastern European installations, and is expected to come online in October 2025, ahead of the winter. From ESS News DTEK and Fluence have begun commissioning Ukraine's largest battery energy storage system, a 200 MW/400 MWh installation spread.

The batteries will be spread out over six plants, helping enhance grid stability and energy independence within Ukraine, which has been at war since Russia invaded more than two years ago. Ukrainian private energy developer DTEK has selected U.S.-based battery storage supplier Fluence Energy B.V.

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy minister Svitlana Grinchuk. The six battery energy storage systems (BESS) range from 20MW to 50MW each, have been connected.

A €384,241 grant infusion from the EBRD and EU is targeting deep-tech solutions for decarbonizing energy, transport, and agriculture, signaling Ukraine's growing role in Europe's green transition. Kyiv, Ukraine - While Ukraine's tech sector has gained global renown for its defense innovations, a.
