Parliamentarians supported the abolition of import duties and VAT on the import of energy equipment, including generators, solar panels and electricity storage systems. People's deputy Yaroslav Zheleznyak reported this. «The Council adopted as a whole №11258 and №11259 regarding the cancellation of.

The head of the Ministry of Economy of Ukraine, Yulia Svyrydenko, announced the introduction of a general tariff of 10% on the export of Ukrainian goods to the United States. This decision was a response to the new customs tariffs announced by US President Donald Trump. This is reported by Київ24.

According to foreign media reports, the Ukrainian parliament recently voted to cancel all taxes and tariffs on imported energy equipment to cope with the severe energy crisis it is facing. This move marks an important step for Ukraine in dealing with energy shortages. Over the past three months.

That's interesting information about the new Ukrainian tax policy on energy storage units. Here's a breakdown of the key points: Exemption from import duties and VAT: Certain categories of goods are exempt from import duties and VAT when imported into Ukraine. This includes some energy storage.

Let's talk about Ukrainian energy storage battery exports – the dark horse of Europe's renewable energy transition. In 2023 alone, Ukraine shipped over \$420 million worth of lithium-ion batteries globally, marking a 67% year-on-year increase. Not bad for a market that didn't even crack the top 20.
