

## ContainerPower Energy Solutions

# Vietnam 40-foot energy storage container

## Overview

---

What is a 40 ft battery storage system?

Battery Storage System 40' Feet Container. Features and functions □ High Yield Advanced three-level technology, max. efficiency 99% Effective forced air cooling, 1.1 overload capacity, no derating up to 55°C □ Various charge and discharge mode, flexible for battery configuration Easy O&M.

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

Why should you choose Bluesun energy storage container solutions?

The professional technical service team makes reasonable design according to the roof type of customers to ensure the efficient operation of customer projects. Bluesun provides 500 kwh to 2 mwh energy storage container solutions. Power up your business with reliable energy solutions.

How much solar power does Vietnam have?

Vietnam's Eighth National Power Development Plan, published in 2023, also acknowledges that the country's solar potential is an estimated 963GW of capacity, and the government has since made moves to provide offtake tariffs and better enable onsite self-consumption.

What is energy storage & why is it important?

Energy storage is a "force multiplier" for carbon-free energy. It allows for the integration of more solar, wind and distributed energy resources, and increases the capacity factor of existing plants to avoid the need for new thermal generation.
