LONDON and MAPUTO, Mozambique, Nov. 1, 2023 /PRNewswire/ -- Globeleq, the leading independent power company in Africa and its project partners, Source Energia, an energy developer focused on Lusophone Africa, and Electricidade de Moçambique (EDM), the Mozambican national power utility, confirms.

led by Jose Parayanken in Mozambique in 1991. Since then, he helmed the organization as its chairman and managing director and helped it grow into what it is today -- one of the largest Indian-owned business houses in Mozambique providing procurement and construction (EPC) services. The project is part of.

Samir Salé, country and business development director of Globeleq, talks to The Energy Year about fast-tracking renewables projects in Mozambique and the potential of solar generation and battery storage in the country's energy mix. Globeleq develops, operates and builds utility-scale power plants.

This summary covers an application by Globeleq Africa Limited (GAL) for its equity and quasi-equity investments in Central Eléctrica de Teterane, S.A. (CET), a renewable energy project in Mozambique (the Project). GAL is seeking cover for up to USD 8.32 million for CET against the risks of.

The first solar power plant with an energy storage system in Mozambique was officially inaugurated on 14 September. Located in the province of Cuamba, Niassa district, the Teterane Power Plant combines a photovoltaic solar energy capacity of 19 MWp with energy storage in 7 MWh batteries. This.

first combined solar and storage plant. "It supplies clean energy to EDM through a 25-year power purchase agreement, provides energy to around 22,000 Mozambican families, saving more than 172,000 ton rade to the existing Cuamba substation. E f 15MW, storing up to 7.5MWh of energy. The combined. Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

What did BII plus do for Mozambique?

BII Plus, the technical assistance facility of British International Investment, contributed a US\$1million grant towards the battery energy storage system. His Excellency Filipe Nyusi, President of the Republic of Mozambique said at the inauguration:.

What is Globeleq's first greenfield project in Mozambique?

The US\$36 million Cuamba Solar plant is also Globeleq's first greenfield project in Mozambique and the Group's first combined solar and storage plant in its operating portfolio.

Why is Cuamba a turning point for Mozambique?

His Excellency Filipe Nyusi, President of the Republic of Mozambique said at the inauguration: "The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district.
